com.cinema_seat_booking.service.
ReservationService.cancelReservation

com.cinema_seat_booking.model.
Reservation.setScreening

```
graph LR; A[com.cinema_seat_booking.model.Screening.addReservation] --> C[com.cinema_seat_booking.model.Reservation.setScreening]; B[com.cinema_seat_booking.service.ReservationService.cancelReservation] --> C;
```

The diagram illustrates a dependency or relationship between three methods. On the left, two white rectangular boxes with black borders contain the following text: the top box contains 'com.cinema_seat_booking.model.Screening.addReservation' and the bottom box contains 'com.cinema_seat_booking.service.ReservationService.cancelReservation'. On the right, a gray rectangular box with a black border contains the text 'com.cinema_seat_booking.model.Reservation.setScreening'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both methods on the left depend on or interact with the method in the gray box.
