

com.cinema_seat_booking.service.
UserService.registerUser

com.cinema_seat_booking.service.
UserService.updateUserProfile

com.cinema_seat_booking.model.
User.setPassword

```
graph LR; A[com.cinema_seat_booking.service.UserService.registerUser] --> C[com.cinema_seat_booking.model.User.setPassword]; B[com.cinema_seat_booking.service.UserService.updateUserProfile] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes with black borders contain the following text: the top box has 'com.cinema_seat_booking.service.UserService.registerUser' and the bottom box has 'com.cinema_seat_booking.service.UserService.updateUserProfile'. On the right, a gray rectangular box with a black border contains the text 'com.cinema_seat_booking.model.User.setPassword'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both service methods depend on or interact with the model's setPassword method.
